***School Director at New Horizon Methodist
School in Lambaré, Paraguay***

Join us for refreshments and to learn more about how God is opening doors of Ministry through the United Methodist Church. This International Methodist Project has Ohio roots and has grown from serving 52 to 660 children and their families! Their plan is to continue to grow so that they can provide educational services for over 750 children (age 4 through 12th grade) as well as recreational, music, library, computer and other services to several thousand community members each year.
